Introduction

We aim to develop technology for the protectors and conservationists of endangered bird species around the world.

Magic Birds Token to flourish as a 100% community-driven project with markedly engaged holders and rapid growth on a daily basis.

Released July, 2021 on the Binance Smart Chain network, the Magic Birds Token project has been iteratively built and improved upon by volunteers within the community since its inception. Graphic designers, writers, web developers, influencers, marketers, data analysts, translators, and more have contributed their talents to help Magic Birds Token grow into an inspirational model of community-driven success.

The project has become a unique social experiment in which the investors are integrated into the project both from a community and developmental standpoint. With so much progress achieved by its community in such a short amount of time, Magic Birds Token stands as a solid milestone in this progressive, exciting age of the Social Blockchain.

MAGIC BIRDS TOKEN

Transparency

Transparency is one of the Magic Birds TokenTeam's highest priorities. New volunteers are frequently added into the Magic Birds TokenTeam to ensure community representation, and community voting is regularly conducted to help decide the best direction of the project.

For example, community votes have been taken on how to allocate funds, which exchanges to focus on, which shelters to donate to, and even which logo to use for the Magic Birds Token. The Magic Birds TokenTeam hopes to evolve this into a governance system based on MBT holdings.

Community Wallet

As a community-driven project with no dev wallets, the Magic Birds TokenTeam opted to create a community wallet that members can donate to in order to further build the project. The community wallet has multi-sig protection, making it so multiple people are required to approve any transaction.

All of the community wallet activity can be viewed publicly, and every transaction is made exclusively to benefit the project.

Tokenomics

The tokenomics of Magic Birds Token are as follows:

- 1,000,000,000,000,000 Initial total supply
- 40% of the total supply burnt & sent to a dead address prior to release
- 600,000,000,000 max limit of MBT per trade
- Owner Wallet %3
- Developer Wallet % 3
- Marketing Wallet %3

MAGIC BIRDS TOKEN

Roadmap

- January 2021
Magic Birds Token idea came up
Research has begun
- February 2021
Website design and Branding process
That best describes the project was made
- March 2021
Social media channels
Determined how we will use social media channels
- April 2021
Developers consulted
Decisions were made on how to proceed with the software.
- May 2021
The opinions of the people were taken
The shortcomings of the project were identified
- June 2021
Test phase started
Test phases completed successfully

- July 2021

Magic egg cracked

04.07.2021 the egg is cracked and the magic birds are born

- August 2021

Token burn plan

Regular token burn plan has been made

- September 2021

Listing plan on the Exchange

Entering service on different exchanges

- October 2021

Announcing technology for magic birds

Announcement of the project we are currently developing

- November 2021

Symposium

Gathering with friends of all Shirli birds around the world.

- December 2021

Christmas surprise of magic birds

Wonderful surprises for holders of magic birds

MAGIC BIRDS TOKEN

-Marketing

15 members analyze how to optimize social outreach and manage official Magic Birds Tokens social media as ideally determined.

-Media

45 members design original images, videos, and music to promote the Magic Birds Token project in a professional and engaging way.

-Software/Web Development

22 members work together to build various applications which utilize the MBT token. This is where applications like MBTCharts and MBTTracker are built.

In addition to this, the Magic Birds Token Team has groups dedicated to writing/translation, communications, moderation, and support. The number of volunteers is ever-expanding as the Magic Birds Token project reaches a wider audience.
